LB 528 requires all public elementary schools to teach students how to handle an infant, under the age of 2, properly. The State Department of Education (NDE) is required to develop and provide a curriculum to carry out the bill and to verify the curriculum is being taught in each school.

NDE estimates a cost of \$6,000 of general funds in 1999-00 to develop a curriculum. Printing of a curriculum guide is estimated to cost about \$10,000 of general funds. It is assumed an annual appropriation of \$10,000 of general funds will be needed for curriculum revisions and/or reprinting. NDE will verify the curriculum is being taught through the school accreditation process. This will require the revision of a rule, which is estimated to have a one-time general fund cost of \$3,200 in 1999-00.
